PREPARING TO NETWORK
Self Introduction / Elevator speech

DEVELOPING YOUR INTRODUCTION:

1. What are your career goals OR why are pursuing a graduate degree? What impact would you like to make?
2. When are you the most fun (professionally)?
3. What do you like most about your work?
4. Which courses are the most interesting to you?
5. Which strengths do you love using in your work?

TYPES OF INTRODUCTION:

• Facts focused example:
"I am working on a Master of Public Policy degree at the Humphrey School of Public Affairs concentrating in social policy. I have 4 years of experience in a nonprofit where I managed a program budget of over $500,000. My career goal is to start a nonprofit that serves people in poverty. For my internship experience, I would like to work in program evaluation with an organization in the Twin Cities."

• Motivations focused example:
"I am committed to improving the lives of people in poverty in our community. This interest comes out of my volunteer experience at a local nonprofit. I am studying the latest thinking on effective & sustainable programs at the Humphrey School of Public Affairs. I am especially excited about learning how to evaluate programs to make sure that we tackle this issue in the most effective ways! I would love to use my new skills with an innovative organization in the Twin Cities."

EXAMPLE EMAIL:
Dear Janet Johnson,

I am a current Science, Technology, and Environmental Policy student at the Humphrey School of Public Affairs. I found you on the Humphrey LinkedIn site and noticed you are an alumni of the school. I am reaching out because I am interested in the energy policy work happening at the Energy Policy Institute. I would love to learn more about your work at the institute and your career path.

If you would be willing to meet, we can find a time that is convenient for you. I understand that you are very busy, so even 20 minutes of your time would be greatly appreciated. Thank you for any help you can provide.

Sincerely,
Steph
